Petition for Forbearance and Pricing Flexibility

July 8, 1999

The ALTS' "Study" Is Meaningless

- It consists of nothing but a patchwork of hypothetical "what ifs" with no factual data to support absurd conclusions and recommendations.
- Unrealistic Criteria For Relief
 - » Collocation in all ILEC wire centers
 - » Route by route analysis of interoffice transport
 - » 20% of the ILEC business loops resold or provided as UNEs

Bell Atlantic

Pricing Flexibility Principles

- Administratively simple process
- Decrease regulation as competition increases
 - » Allow deaveraged rates and targeted rate reductions
 - » Provide clear path for removal of all price regulation
- Criteria and Triggers must be
 - » Explicit
 - » Measurable
 - » Verifiable
- Comprehensive -- must address all markets
 - » Services
 - » Geographic areas

Status of Competition in Metropolitan New York

— Fiber MSA BA Wire Center Coll WC

1 inch = 7 miles

Competition in non-MSA Areas

Vermont
1 inch = 21 miles

Delaware
1 inch = 13 miles

— Fiber MSA BA Wire Center Coll WC

Other Concerns

- Respond to RFPs
 - » Customers with demand across MSA and non-MSA
- Facilities-based competition
- Criteria for non-MSA relief
- Lower Formula Adjustment

SUMMARY

- Meaningful relief must include *reasonable* opportunity to remove services from price caps
- Criteria for relief must be *realistically* attainable
- Provisions must also allow for relief for non-MSAs
